

How do I personalise my accounts?

You will be able to personalise the view on your Welcome Screen via the “Account Options” menu.

Give your accounts names that mean something to you. For example, you might want to call your S1 ‘Holiday’ and your S5 ‘Bills’.

1. Go to “Account Options” menu and select ‘Personalise Account Names’.

2. Select the account you want to rename and enter the name in the box at the end. Then click on ‘Save’.

Personalise Account Name

To personalise an Account Name, highlight an Account in the list below then enter a new name in the lower input box. Do not enter the word "account" in your new account name as it is not needed and will be automatically removed. Maximum length of the account name is 22 characters.

Note: After entering the new name click on save.
